

# Avoid One Thing, Armbands And Braids

feed my obsession  
can't let go fear of rejection  
don't look now you might see half a man  
when the blood comes pumping  
pain inside my head's something on overload  
I feel like I've been hanging out in the rain

every second of everyday  
every second of everyday  
every second of everyday

see my reflection  
same old suit and tie collection  
run for the bus as fast as I can  
speed dial  
fast connection  
take a deep breath in the smoking section  
dream of living poor in a foreign land

every second of everyday  
every second of everyday  
every second of everyday

I'm trying to figure it out  
before it gets me down  
can't let it get me down  
oh no

I find myself struggling for something else to say  
don't bother calling  
I'll be waiting on the corner

every second of everyday  
every second of everyday  
every second of everyday

I'm trying to figure it out
