

# Avril Lavigne, Kiss Me Like The World Is Ending

Let's go

Tick, tock, I should've known the time was coming  
Yeah, It's just like me to be kinda all or nothin'  
I can't stop, try to catch me if you can  
I was born on the run but I'll die holding your hands, yeah

The stars shine for the two of us (Two of us)  
So sweet and mysterious  
Got a crush, and baby, truth or dare  
Spin the bottle, I'll be waiting there, yeah

Kiss me just like the world is ending  
Give me one last perfect memory  
I don't want to say goodbye  
Let's meet up after we die  
So kiss me just like the world is ending

Kiss me just like the world is ending  
Kiss me just like the world is ending

Hell yeah, I'll be caught up in the moment  
All up in my feels, you're the one that controls it  
On my last day, all I wanna do is  
Look you in the eyes and fall asleep right next to you, yeah

The stars shine for the two of us  
So sweet and mysterious  
Got a crush, and baby, truth or dare  
Spin the bottle, I'll be waiting there, yeah

Kiss me just like the world is ending  
Give me one last perfect memory  
I don't want to say goodbye  
Let's meet up after we die  
So kiss me just like the world is ending

Do you promise it's forever?  
Will you meet me up in heaven?  
Do you promise it's forever?  
Will you meet me up in heaven?  
Up in heaven, yeah

Kiss me just like the world is ending  
Give me one last perfect memory  
I don't want to say goodbye  
Let's meet up after we die  
So kiss me just like the world is ending

So kiss me just like the world is ending  
Kiss me just like the world is ending
