

# Avril Lavigne, Lights Out

In the shadows of a night light, somehow I can make you out  
When I'm with you I feel the room spin 'round and back again (Ha, ah, ah, ah, ah, oh)  
Doesn't matter if the darkness has come to swallow me whole  
'Cause there's a tiny little voice that I hear calm me down (Ah, ah, ah, ah, ah, oh)

Now I got a weapon, you're my protection  
Carry me through to the other side

'Cause right now, with the lights out  
I'll follow wherever you lead  
It's beautiful, this is pure gold  
You saved your best for me  
Right now with the lights out  
I'll follow wherever you lead  
It's magical, this is pure gold  
You saved your best for me

Out of body, out of my mind, I'm crossin' over finish lines  
There's a meaning underneath that I've been waiting for (Oh-oh-oh-oh-oh)

Now I got a weapon, you're my protection  
Carrying me through to the other side

'Cause right now, with the lights out  
I'll follow wherever you lead  
It's beautiful, this is pure gold  
You saved your best for me  
Right now with the lights out  
I'll follow wherever you lead  
It's magical, this is pure gold  
You saved your best for me

Oh-oh, you saved your best for me  
Oh-oh

Lyin' in the dark, lyin' in the dark  
I see sparks, your heart, my heart on fire  
Lyin' in the dark, lyin' in the dark  
I see sparks, your heart  
Oh-oh-oh-oh

'Cause right now, with the lights out  
I'll follow wherever you lead  
It's beautiful, this is pure gold  
You saved your best for me  
Right now with the lights out  
I'll follow wherever you lead  
It's magical, this is pure gold  
You saved your best for me  
Oh-oh, you saved your best for me  
Oh-oh, you saved your best for me
