

# Avril Lavigne, My Way

[chorus]

Its my way

You gotta see to the top and if ya don't

You'll fall down,

Nobodys' there to help you up

And you want me to love you again

It ain't gonna happen again,

No way no way

All this time

You're feeling my way,

Don't know who or what it was,

But you're feeling my way,

We used to be good friends,

Although good things come to an end,

I never thought this day would come,

Tired of feeling too young,

And all my dreams were left to talk about

[chorus]

It was my way,

But it sure ain't your way

I'm big,I moved,I shoulda told you

That I loved you,it coulda worked out,

I mean,we're still good friends,

Although we're far away,

I'll still write to you,

I'm a little step closer to you everyday,

Its my way!
