

# Avril Lavigne, Take Me Away!

Don't, don't, don't say no to anything  
yes, yes, say yes to everything  
just find a way... to get away (wanna runaway)

Let's take off the clothes and see if anybody notices  
then runaway, what d'you say? (when I'm okay)

Have a little joy, have a little faith...  
live life  
have a little hope, have a lot of fun

'Cause you... you  
you never know  
what people throw  
to make you stop

I, I, I'm gonna try to let this life  
pick me up and take me away

Run up to a stranger  
kiss and tell them that you love them and then walk away  
you made their day... (at least I hope you did)

Stand up in a restaurant, start dancing on a table  
then get kicked out for that behavior (that behavior)  
oops... I did it again

Have a little joy, have a little faith...  
live life  
have a little hope, have a lot of fun!

'Cause you... you  
you never know  
what people throw  
to make you stop

I, I, I'm gonna try to let this life  
pick me up and take me away

Don't you know that nothing equals nothing?  
do anything, do everything, do something  
open up your mouth and let your soul sing!

You, you... you never know  
what people throw  
to make you stop

(I) Ah ah ah ah ah ah ah ah

You, you, (you never know) you never know  
what people throw  
to make you stop

I, I, (you never know) I'm gonna try to let this life  
pick me up and take me away! (away, 'way, 'way...)
