

# Away From Here, Hey Angel

Hold my hand  
Cut my wrists  
Bleed, to show you I'm alive  
Take this rusty knife  
Carve to see inside  
My guts will spill to show you I'm alive  
Your lips, so smooth to feel  
Couldnt they be razor blades?  
Bleed to know your real (bleed to know your real)

Well hey  
It's just fine angel  
Sign language will work  
To show you that Im alive [X2]

Discard  
Discard the flames  
And what are we left with, without love  
(We're left with nothing)  
Were left with nothing without love  
And you  
Can throw me in the fire  
Flames that burn my face  
It's all this I admire, it's all this I admire

Well hey  
Its just fine angel  
Sign language will work  
To show you that Im alive [X2]

(Discard the passion  
Discard the flames  
and what we are left with  
Were left with nothing...without love)

Coming back  
I hope you come back again [X16]
