

Axamenta, Incognition

(06/30/1908 A.D. - Tunguska area, Russia)

I am the new disease
I am a binary soul - burnt into flesh
Conceived within a dimension past all comprehension
I am Genesis...

...And Apocalypse

I am a blueprint of man
I am a manipulation of previous assembly
Overclocked the protocol
I am backwards incompatible

A paradigm shift
On the axis of incarnation
A mortal's fate bypassed
The incognition

I am to annihilate, disintegrate, deprivate
Deteriorate - "A cluster of races set to erase"
Engage my spine of relays

I am an anagram - decrypted DNA - a proclaimed progeny - the incognition

I am the incognition
Decrypted DNA
I am an anagram of man
