

# Axenstar, All I Could Ever Be

(M & L: Thomas Eriksson)

You thought you knew what I was all about  
A smile on your face but you're drowning in lies  
You stole my heaven and put me through hell  
One of us must go down, Well I'm not the one

(BRIDGE)

They try to push me over the edge  
But you know in the end they failed  
I'll live my life until it's over

(CHORUS)

You have not lived the life I've lived  
Your words couldn't mean a thing  
Don't care what you think, keep it to yourself  
And let me be all I could ever be

Although you try you cannot bring me down  
I'm free in my will and I bow down to none  
You sinful ways must now come to an end  
I am the one of a kind and I'll never die
