

# Axenstar, Spirit

Four hundreds of years they have strived to be free  
From oppressions of the enemy  
Riding with the spirits, guiding their way  
Through the magical mist that surrounds them  
Living life as simple as it was meant to be  
Standing tall fulfilling the prophecy  
Riding with the spirits, guiding their way  
Through the magical mist that surrounds them  
In the fire they come alive  
The soldiers of ancient time  
Dancing inside the flames  
Like angels in heaven  
In the fire they come alive  
The soldiers of ancient time  
Dancing inside the flames  
Like angels in heaven
