

# Axis Of Advance, Deceivers Purged

We watched and we waited;  
Patiently biding our time.  
Allowing you to sow in our fields,  
Knowing we would desecrate your crops.

As fruits came to bear we descended as fog in the night  
Choking our your right to exist  
While you fought to the death for the scraps

Inbred,  
Incestuous  
And wholly impure

Wasted, you can only fight amongst yourselves.  
That is, if we allow you to.

As you attempt to break yourself free  
Our grip intensifies, we entertain your pleas  
Lined up, one by one, a train of mercy -  
Begging, teary eyed, on your hands and knees.

One by one,  
One by one,  
One by one, the Deceivers are Purged  
One by one,  
One by one,  
One by one, the Deceivers are Purged

Puppets, your downfall is complete  
Transpiring to our design  
With hatred your pitiful fate  
Is finally sealed in totality.

Your existence extinguished;  
Our strength, not numbers, will tell.  
Arise, elite forces of hate!  
Intolerance for deceivers - destroy now!

Inbred,  
Incestuous  
And wholly impure

Splinter now, be gone!  
Back to your miserable holes!  
That was all you were born to do.  
You're dead.
