

Axxis, Against A Brick Wall

Nothing's gonna steal my energy
Hell on earth when I break free - I'm burning - just like fire
My veins are full of electricity
My blood is the current that's pushing me up - higher and higher
Don't hold me back - don't lock me up
Don't try to block, what even walls can't stop
I would bang my head against a brick wall
I can't stop doing things I wanna do
I would bacn my head against a brick wall
I can't stop doing things I wanna do
Overdosed with rock n'roll - I'm feeling out, out of control
I'm rockin'g an I'm rollin'
I never cool down - I never cool of
You can't stop me when I', blasting off
I'm exploding
Don't hold me back - don't lock me up
Don't try to block, what even walls can't stop
I would bang my head against a brick wall
I can't stop doing things I wanna do
I would back my head against a brick wall
I can't stop doing things I wanna do
Don't smoke, don't drick, sit down, shut up,
don't bug me,
Don't touch me, back off, get lost, I bang
I always break out - I'm full of energy
I can't restrain what I wanna be
Don't hold me back - don't lock me up
Don't try to block what even walls can't stop
I would bang my head against a brick wall
I can't stop doing things I wanna do
I would back my head against a brick wall
I can't stop doing things I wanna do
I would bang
Against a brick wall
I would bang
Against a brick wall
A brick wall

3. Stay Don't Leave Me

Time, will show us a better day
A better day we both could use
I know there's no other way
Another way we both would lose
So here we are, again
woman and man
With our hearts, in hand
Sinkin' in the sand
Stay don't leave me, don't turn away
Love will prove what friend are for
Stay don't leave me, don't turn away
Love will prove what friend are for
What friend are for
Life, plays like a funnt game
A twisted rain, falls while we pray
I belive, we will love again
And 'till the end we both will stay
But here we are, again
Tyrin' to understand
What went wrong, we long
Cryin' out our song
Stay don't leave me, don't turn away
Love will prove what friend are for
Stay don't leave me, don't turn away
Love will prove what friend are for
What friend are for

Here we are again
Woman and man
With our hearts, we long
Cryin' out our song
Stay don't leave me, don't turn away
Love will prove what friend are for
