

# Axxis, Better World Livin' In The Dark

Can you feel  
Can you heal  
Can you steal the best  
Of a million hearts around  
It's the heart of a new generation  
Waiting for a new world to be found  
Money rules - only fools  
Do you think we're blind  
Well open up your eyes  
We're not hot on success - just happiness  
Now a new wish has arrived  
I wanna better  
I wanna better world  
I wanna better  
I wanna better world  
That's better for you - that's better for me  
Somebody we'll get it - eventually  
I wanna better  
I wanna better world  
I wanna better  
I wanna better world  
[Livin' in the Dark]  
Civil war in Jugoslawia  
A flood disaster in India  
An ozonehole in the atmosphere  
A dirty air that we breathe in fear  
Planet we call mother earth  
You're burdened by every new child's birth  
The worst plague between time and space  
Are the creatures of the human race  
The human race  
We can't - we can't - we can't get another world for free  
For free - we get no other one  
Like livin' in the dark  
We close our eyes  
Like livin' in the dark  
We're walking on ice  
Like livin' in the dark  
We're prayin' the price  
Like livin' in the dark  
Livin' sleepwalkin' lives  
Sleepwalkin' lives  
An earthquake in Los Angeles  
A world disaster in full progress  
Rainforests burning - it's all screwed up  
A greenhouse effect is not to stop  
We know and see but don't react  
We don't face the hard facts  
Too many people - too little space  
For mankind it's almost too late  
Almost too late  
We can't - we can't - we can't get another world for free  
For free - we get no other one  
Like livin' in the dark  
We close our eyes  
Like livin' in the dark  
We're walking on ice  
Like livin' in the dark  
We're prayin' the price  
Like livin' in the dark  
Livin' sleepwalkin' lives  
Sleepwalkin' lives
