

Axxis, Bites Inside

Eyes in fright - the devil inside
That's the reason why she's giving up this night
Face was punched by a demons' touch
Her swollen bleeding lips really hurt so much

Eyes wide shut - taste her own blood
Was treated like a slave - feeling like a slut
In spite of his hate - it's never too late
Never let your fear decide your fate
It's dangerous to wait

Chorus:
Cos, Mary married a monster
Mary married a monster man
Mary married a monster
Don't suffer in silence and fight

No way out - no escape
Always living in the fear of being raped
Bad to the bone - a really sick man
Why she doesn't move - why not break her chain?
How could she stand all that pain?

Chorus:
Oh, Mary married a monster
Mary married a monster man
Mary married a monster
Your fear decides your fate

Solo

Let us scream loud just to break the silence
Living in the shadows of an everyday crime

Chorus:
Mary married a monster
Mary married a monster man
Mary married a monster
Don't suffer in silence and fight
