

# Axxis, Ecstasy

You drag your nails across my back  
I can feel your teeth upon my neck  
I am in ecstasy  
You blow my mind - heat me up  
Take my spirit to the top - so high  
I am in ecstasy  
We fly...till we die  
We fly...till we die  
More than more is not enough  
I need your mind expanding stuff  
To fly...to fly  
All my strength - down the drain  
No escape - I tried in vain  
I am in ecstasy  
We fly...till we die  
We fly...till we die  
In your hand - helplessly  
Sweat and blood - I cannot flee  
On my skin - sweetest pain  
A million needles like burning rain  
We fly...till we die  
We fly...till we die
