

# Axxis, Heaven In Black

Are you cold as ice, are you hot like fire  
Going to extremes - your desire  
Go to the left - go to the right  
In the middle you will find a reason not to fight  
Different worlds, different things  
Different thoughts of different people  
God given blaze of colour everywhere  
Heaven in black - heaven in white  
Loving the darkness and the light  
Different thoughts could make our life so colourful  
Heaven in black - heaven in white  
Living by day and loving the night  
Opposites attract in our life  
Everybody is black, every flower is grey  
The same old prayers we all pray  
A boring world without good and bad  
Our life would really be so sad  
Different...  
Heaven in black - heaven in white  
Loving the darkness and the light  
Different thoughts could make our life so colourful  
Heaven in black - heaven in white  
Living by day and loving the night  
Opposites attract in our life  
Everybodies life  
Heaven in black - heaven in white  
Loving the darkness and the light  
Different thoughts could make our life so colourful  
Heaven in black - heaven in white  
Loving the darkness and the light
