

# Axxis, Keep Flying

I wanna built a world for you  
But you don't want my dreams  
I realize our feelings fade away  
I wanna be so close to you  
But we are worlds apart  
How could we heal our love and our broken hearts  
Why... Why I can't stop loving you  
Keep flying, come on baby keep on flying  
Why... Why I can't stop loving you  
Keep flying high  
Our love is like a bird  
Flying through rain and storm  
Drifting with the wind up to the sky  
A new hope, a new horizon  
Shining like the sun  
Maybe our love has just begun  
Why... Why I can't stop loving you  
Keep flying, come on baby keep on flying  
Keep flying high  
Why... Why I can't stop loving you  
Keep on flying un to the sky
