

# Axxis, Kings Made Of Steel (Live)

We were forced to work  
Forced to obey  
We were dependent in every way  
Oh yes, we've produced  
And they've cashed in  
So they've improved us  
They always win  
And our might grows day by day  
Yes, forever we'll stay

Kings made of steel  
Hold the world in their hands  
Something that we couldn't foresee  
Kings made of steel  
Have taken their chance  
Humans are praying for mercy

They've built us to kill  
We kill them all  
Built us to rule  
Rule over all

Now we're the masters  
They are the slaves  
They've dug their own  
Their own graves  
And our might grows day by day  
Yes, forever we'll stay

Kings made of steel  
Hold the world in their hands  
Something that we couldn't foresee  
Kings made of steel  
Have taken their chance  
Humans are praying for mercy

Kings made of steel  
Drag humans to their graves  
Kings made of steel  
Change masters into slaves  
Kings made of steel  
Take the world with fear and fright  
We pay for our way into hell

Kings made of steel  
Hold the world in their hands  
Something that we couldn't foresee  
Kings made of steel  
Have taken their chance  
Humans are praying for mercy
