

# Axxis, Rolling Like Thunder

I feel the sweat  
And I'm trembling all over  
Minutes before the show  
Stage-fright tonight  
My hands are wet and cold  
Now it's time to get ready  
I have to go  
I can hear the people shouting  
My blood pressure is rising  
Time after time  
Rolling like thunder  
Feeling a storm deep inside  
It's like a fire  
I wanna explode in the night  
Sweating in the light  
Exhausted every night  
My heart is beating  
And the drum beats in my ears  
Dancing in the heat  
Stamping with my feet  
The music drives me  
High and higher  
And we do all that we can  
To make you feel alright  
Exploding in this sound  
It's like a trance  
Turning round and around  
Rolling like thunder  
Feeling a storm deep inside  
It's like a fire  
I wanna explode in the night
