

Axxis, Shadowman

Magic Night - I can hear the voice of the shadowman...
Every night
I hear the steps in my mind
I'm freezing and feel the fear
This nightmare won't disappear
I try to touch your face
Hiding away in the haze
You're turning your head, I cry, I die
This eyes red like fire are mine
I'm gonna break the glass
I'm in a mirrorland
Everywhere I go, I stay
There is no place to hide away
Magic night
I can hear the voice of the shadowman
Dream my dream there is no way out
Magic eyes
Take a look in the face of the shadowman
It's like a hellride through your mind
Wings of night
A black door to the other side
Here is the gate to the depths of my soul
When my spirit is out of control
I feel it in a daze
I watch that demon face
I know it's myself I see...
The shadowman it's me
I'm on the other side
The darkworld of dreams
I'm bad, not innocent
My other self in the mirrorland
Magic night.....
I'm the shadowman.....
