

Axxis, Shadowman

Magic Night - I can hear the voice of the shadowman...

Every night

I hear the steps in my mind

I'm freezing and feel the fear

This nightmare won't disappear

I try to touch your face

Hiding away in the haze

You're turning your head, I cry, I die

This eyes red like fire are mine

I'm gonna break the glass

I'm in a mirrorland

Everywhere I go, I stay

There is no place to hide away

Magic night

I can hear the voice of the shadowman

Dream my dream there is no way out

Magic eyes

Take a look in the face of the shadowman

It's like a hellride through your mind

Wings of night

A black door to the other side

Here is the gate to the depths of my soul

When my spirit is out of control

I feel it in a daze

I watch that demon face

I know it's myself I see...

The shadowman it's me

I'm on the other side

The darkworld of dreams

I'm bad, not innocent

My other self in the mirrorland

Magic night.....

I'm the shadowman.....
