

Axxis, Temple of Rock

Children of the seven seas - are crawling in the dark
No way to run - nowhere to hide - from darkness to the light
It's time for action now - in this modern zoo
No way to feel angry - there's nothing you can do

Bridge:

Do you believe
Oh, in this strange world today
Look into my eyes
Just take my hand and let us fly

Chorus:

Let me take you to another world anywhere
I'll take you to the secrets of your life
I am praying in the palace of my paradise
Praying for you in the temple of rock

Brother moon is calling me - he's hiding in the dust
A sacred place is all they need - feel the secret lust
Before I try to be like you - I'm rather on my own
Fear is growing in their souls - in my danger zone

Bridge

Chorus:

Let me take you to another world anywhere
I'll take you to the secrets of your life
I am praying in the palace of my paradise
Praying for you
I really do
I change your mind
In this modern zoo
In the temple of rock

Solo

Chorus:

I'm praying, I'm praying
Praying for you
Oh, let me take you to another world anywhere
I'll take you to the secrets of your life
I am praying in the palace of my paradise
Praying for you in the temple of rock
