

# Axxis, World Of Mystery

No matter who you are  
You gotta join in and pray...

Under the roof of god  
We feel the passion of love...

Come follow me  
Come follow me..

Just you and me  
We will cross the world of your destiny

It's true  
It's real  
Falling in a world - a world of mystery

Under the shining moon we come  
together and sing...  
Let's take each other's hand  
Feel our force deep inside

Just you  
And me  
We'll cross the world of our destiny

It's true  
It's real  
Falling in a world - a world of mystery

Just you  
And me  
We will cross the world of our destiny

It's true  
It's real  
We will cross the borderline to live for what we feel
