

Ayaka, I Believe (english version)

Hidden where no one else can see
A whirlpool in my heart
Of my anxiety
So many roads to follow
Not really sure which one I should take
Any way, I'm being me
For so long
I let others tell me the way
Say good bye
To that part of yesterday
I believe myself
'Cause I know it's what I need
Everything begins when I'm believin' in myself
Ooh
I believe in me
That moment, shining light I see
To the truest thing I know
That is what I'm gonna do
I believe
In front of me, fill in my eyes
With eternal open skies
I wanna know this feeling
Of Pureness all my life
I believe myself
'Cause I know it's what I need
Everything begins when I'm believin' in myself
Ooh
I believe in me
That moment, shining light I see
To the truest thing I know
That is what I'm gonna do
I believe...
Myself
I believe myself
