

Aziel, Fall In Love Again

(YEAAAAHHHHHHH)

I can be the one you are waiting for
I can be the only one to love you like before
you know that we both made mistakes
fooled around and played around and strayed along the way
maybe we just need a second chance
I really think that we can make it last
Maybe we can Light a candle in the window
turn the lights down really low
Marvin Gay on the stereo
I know we can fall in love again
lock the door throw away the key
no one else just you and me make tonight a reality
I know we can fall in love again
(ohhhhhhhh ohhhh)

We don't have to hide the way we feel(hide the way we feel)
we don't have to make pretend that what we had was real
we don't have to worry about mistakes we made(about mistakes we made)
all of that's behind us now there's nothing in the way
maybe we just need a second chance(maybe we just need a second chance)
I really think that we can make it last

Maybe we can Light a candle in the window
turn the lights down real low
Marvin Gay on the stereo
I know that we can fall in love again
Lock the door throw away the key
no one else just you and me make tonight a reality
I know we can fall in love again

I don't want to spend my whole life without you just wishing that I had tried
one last time

I believe we can fall in love again 8x (ohhh ohhhh)

Maybe we just need a second chance(maybe we just need a second chance)
I really think that we can make it last

Maybe we can Light a candle in the window
turn the lights down real low
Marvin Gay on the stereo
I know that we can fall in love again
Lock the door throw away the key
no one else just you and me make tonight a reality
I know we can fall in love again

I believe we can fall in love again 7x (ohhhhhhhhhh)
