oHhH.. oh Oh oHh...oH oH Oh..Oh Oh oH..

Love leads to laughter, love leads to pain,  
with you by my side i see good times again,  
never have i felt this feeling before, you showed  
me the world how could i ask for more, girl tho  
theres confusion we'll find a solution to keep my  
heart close to you, and i know, yes i know, if you  
hold me belive me i'll never never ever leave,  
there is nothing that i would not do for you, forever  
be true, and i know, although times may be hard  
we will see it threw, im forever in love with you,

dum dum dum..

show me affection in all diffrent ways, give you my hart  
for the rest of my days, with you all my troubles are left  
far behind, like heaven on earth when i look in your eyes

girl tho theres confusion, we'll find a solution to keep my  
heart close to you, and i know, yes i know, if you hold me,  
belive me i'll never never ever leave, and i know, there is  
nothing i would not do for you, forever be true and i know,  
all though times can be hard we can see it threw,

no need to cry, i'll be right by your side(right by your side) oh Oh oh,  
lets do our time, love wont run dry, if you hold me, belive me  
i'll never never ever leave, and i know, there is nothing that i  
would not do for you, forever be true, and i know, all though  
times can be hard we will see it through, im forever in love with  
you, and i know there is nothing that i would not do for you, for  
ever be true, i know that times can be hard but we'll see it through,  
im forever in love with yOu
