

Azn Dreamers, If You Were My Girl

If you were my girl... If you were my girl...

Achin to see the sun again
Achin to see your eyes to see how they shine
They make this world a better place
Achein' to see you smile again
Achin to hear you laugh and say im not dreamin
When you caress my hair
Your touch so oh and gentle baby
Then I can seek true happiness at last

If you would be my girlfriend
Then I would be in heaven
Then I could do anything
Stand on my head and say you were my girl (Chorus x2)

I wish I could feel your lips right now
Wish I could let my hand glide through your hair
I wish I could softly hold your hand
I wish I could tell you every dream
I wish I could tell you everything that I feel
I wish I could tell you that I need you here to kiss me babe
If only I could get myself to say hey hey

If you would be my girlfriend
Then I would be in heaven
Then I could do anything
Stand on my head and say you were my girl (x2)

There are so many beautiful girls in the world
But there's only one that I want
And I've chosen today
That I can't ever stay
Unless I stay here with you

If you would be my girlfriend
Then I would be in heaven
Then I could do anything
Stand on my head and say you were my girl (x2)
