

Azn Dreamers, Keep The Flame Alive

Far beyond all hate and sadness
Comes a moment to reflect
Yes we know the truth might bring us justice
And time may ease the pain
But we should not forget the souls that we have lost
Let us sing a silent pray and call them names
Keep the flames and keep the fires burning
For those who dissapeared

****Chourus:**

Light up candles for the souls
To guide them on there way
They have paid the final toll
Faithful in the day
Nobody can take our pride away
We'll keep the flame alive
Lets salute them here today
And walk out in the light**

nOoOo Lets keep the flame alive
We never can forget
The caravans of death

Hear Our cry and pain of anguish
Give us strength now to go on
Bound by chains the innocent still languish
For evil know no shame

****Chourus 2 times**

Light up candles for the souls
To guide them on there way
They have paid the final toll
Faithful in the day
Nobody can take our pride away
We'll keep the flame alive
Lets salute them here today
And walk out in the light

Light candles for the souls (keep the flame alive)
The have paid their final toll so keep the flame alive
OoOOoO...Keep the flame alive...OoOOoO
