Vocals & Drum programming jimmy bralower. percussion carole steele. background Vocals tawatha agee, jill dellabate, roddy frame, lani groves and dan Hartman. produced by russ titleman. engineered by josh abbey.

My girl
She fled the fatherland
And all it's dumb demands
My girl
She is the essence pure
She's super sure, she's got the cure
She's love's ambassadress
With a message

Here comes the bottom line

Are we going to live together Lovers over all One unending understanding Deep & Deep &

My girl
She is the sweetest sound
When living lets me down
My girl
Can turn me on this way
From a world away
She's love's ambassadress
She's got a message

Here comes the bottom line

Are we going to live together Lovers over all One unending understanding Deep & Deep &
