

Azure Ray, Fever

Fever i know you've come to take my love
Go away
Fever i know your face just like a dove
Fly away
Fever turn the lights out
Take a different road
Let us be
Fever i know you've come to take my love
Go away
Fever i know in god i shouldn't trust
He's so far away
Fever turn the lights out
Take a different road
Let us be
Fever take a different route
Travel a different road
Let us be
Fever i know you've come to take my love
Go away fly away go away
