

Azure Ray, Fly Away

fever i know you've come to take my love

go away

go away

go away

fever i know your face just like a dove

fly away

fly away

fly away

fever, turn the lights out. take a different road, let us be.

fever i know your've come to take my love.

go away

go away

go away

fever i know in god i shouldnt trust. he's so far away, so far away

far away

fever turn the lights out. take a different road, let us be.

fever, take a different route, travel a different road, let us be.

fever i know you've come to take my love.

go away

go away

go away

go away

fly away

go away

fly away, oh how low, how low.
