

# Azure Ray, I Will Do These Things

I will take your childhood dreams  
And turn them into to beautiful film  
I will take your most important things  
Cast them gold fill a mueseum

So your heart doesn't know where mine's been  
I'll never let your heart go where mine's been

I will kiss away every tear  
They'll disappear in my mouth  
And i will believe in all your fears  
You let them in, i'll let them out  
And put them in their place, my love

So your heart doesn't know where mine's been  
I'll never let your heart go where mine's been

I'll never let your heart go where mine's been
