

# Azure Ray, If You Fall

Let's talk and we'll fill the air  
The imagery that lasts forever  
So this is love and that's a lovely thought  
You have to care for it to keep it together

And if you fall, will you get up  
Stuck in a dream, will you wake up  
And if you've found love will you hold on to it  
And if it's cold, will you stay warm  
Drift too far, will you swim towards the shore  
And if you've found love will you hold on to it

Let's just sing and we'll fill the air  
The melodies that blend together  
I speak so sweet of words so delicate  
Like the glass I hope will never shatter

And if you fall, will you get up  
Stuck in a dream, will you wake up  
And if you've found love will you hold on to it  
And if it's cold, will you stay warm  
Drift too far, will you swim towards the shore  
And if you've found love will you hold on to it
