

Azure Ray, Leave It All

On a bridge by the mill I lay down my life
I open my arms, embrace the night
and with no wings to fly
i have found
I leave it all
I leave it all
the things that i said, take them back if I could
look up to the place, played a trick on me good
nowli look at his face its just as well
I leave it all
I leave it all
I leave it all
vanishing into the night
I leave it all
I leave it all
I leave it all
I leave it all
I leave it all
I leave it all
