

Azure Ray, New Resolution

Follow blind
Heavy eyes hold position
Right on time
It was a lucky prediction

Move on, move on
It's like the clock is pacing
The break of dawn and our hearts are racing
Move on, move on
No there's nothing changing

Don't undermine
My new resolution
Just to find
different light a new direction

Move on, move on
Now the records skipping
I won't forget, i won't forget the way you said
Move on, move on
There's no point in waiting

Move on, move on
It's like the clock is pacing
The break of dawn and our hearts are racing
Move on, move on
No there's nothing changing
Move on, move on
Now the records skipping
I won't forget, i won't forget the way you said
Move on, move on
There's no point in waiting
