

Azure Ray, Safe sound

With every word i live again
Through the eyes of another
We'll meet at night wet from the rain
And surprise each other
With how we take away the pain
Could you be the one to find me safe and sound
Love is how it's lost not how it's found
I don't know those eyes
But i see beauty there always
I know it's wrong to love you from afar
But it's a craze
You recognize my pain
Could you be the one to find me safe and sound
