

Azure Ray, Sea Of Doubts

I told them all the ones i love
I'm leaving and i may not return
See lately i've been overcome
A feeling i fear has just begun
The pain i feel deep inside
That haunts us all that we will die
Never really knowing how it feels
To be alive
Through mountains and over seas
Through misery and disease
A spectator i played my part
But nothing could move this heart
Until i held the boys hand
The little one spoke like a man
He showed me death and said
This is how you know you're alive
A kingfisher in flight
You'll rise above the sea of doubts
Into a world full of clouds
Alive
