Miscellaneous

Can't Get Enough

I've been tossing and turning all night  
Staring into the darkness, afraid to turn on the light  
It's got nothing to do with money  
I can sing, I want you honey  
And I just can't rest until I get it right

Cause when the morning breeze starts blowing  
That's when you'll hear me call your name  
That's when my love starts showing  
It's getting serious, baby...  
End of game

Cause I can't get enough of your love  
I said I can't get enough of your love  
I can't get enough of your love  
I said I can't get enough of your love

You got me walkin' round in circles  
Yeah, I'm always pacing the floor  
But this life I'm living without you  
I just can't take no more

Well, the morning breeze starts blowin'  
I can hear you call my name  
That's when my love starts showin'  
It's getting serious, baby...  
End of game

Cause I can't get enough of your love  
I said I can't get enough of your love  
I can't get enough of your love  
I said I can't get enough of your love

I...can't get enough of your love...  
I...can't get enough of your love...

When the morning breeze starts blowing  
I can hear it call your name  
That's when my love starts showing  
It's getting serious, baby...  
End of game

Cause I can't get enough of your love  
I said I can't get enough of your love  
I can't get enough of your love  
I said I can't get enough of your love

I can't get enough of your love...  
I said I...can't get enough of your love...
