

# B.B. King, What A Way To Go

I've got to find my baby  
I don't know what way to go  
Yes, I've got to find my baby  
I don't know what way to go  
Yes, She don't believe that I love her  
I have to find her so I can tell her so

She said that she loved me, people  
She didn't want nobody else  
Yes, my baby said she loved me, people  
She didn't want nobody else  
Well, you know I love that woman, people  
Better than I do myself

Baby, if you can hear my voice  
Please don't run away from me  
Baby, if you can hear my voice  
Please don't run away from me  
'Cause I mean every word I say, baby  
I just can't hold on another day

Yes, if you love ever strike you, baby  
Sit down and write me a line or two  
Yes, if you ever, if you ever, if you ever think about me, baby  
Sit down and write me a line or two  
Yes, I wanna see you so bad now, woman  
Babe I don't know what to do
