

# B\*Witched, I Shall Be There

Awaken, breathe  
Hear the calling in the wind  
The voice, it's saying  
A journey must begin

We'll fly like a bird  
In a scattered cloudy sky  
Leave aside the city worries  
It's just a minute away

In my heart I'll paint a picture  
And I swear it's where I'll be oh!

I shall be there (be there yeah!)  
Will you be there?  
I shall be there (be there yeah!)  
Will you be there too?

Come and look in silence  
Believe in what you see  
(In a place like this)  
The starry skies can move the mountains  
The sun will warm the sea

In my heart I'll paint a picture  
And I swear it's where I'll be oh!

I shall be there (be there yeah!)  
Will you be there? (will you be there)  
I shall be there (be there yeah!)  
Will you be there too?

(instrumental / choir)

I shall be there

We will be, we will be

I shall be there (be there yeah!)  
Will you be there?  
I shall be there (be there yeah!)  
Will you be there too?

(repeat to fade)
