

B*Witched, In Fields Where We Lay

There's a green hill far away
In a land I know so well
And the sun its shone so bright

In the fields where once we did lay (x2)

As we walked that winding road
I remember oh so well
The times we spent together

In the fields where once we did lay (x20)

How we laughed and carved our names
And declared our love forever
On that old oak tree we found

In the fields where once we did lay (x2)

There's a green hill far away
In a land I know so well
And the sun it shone so bright

In the fields where once we did lay (x3)
