

B2K, I Know You're There

You take me to paradise
And I feel as though I'm going
out of my mind, can't you see
Every time I'm with you I feel weak
Even though we're in a dream, oh I
Can't last a day without
your touch, your kiss
Gently caressing my body
My body is only for you
Distant love, wish I
knew how I met you
I know I shouldn't waste
time wondering
Is it you who yearns when
I touch your skin
So gentle, so gentle, I can feel you
Tell me

Tell me this is no lie
I see you in the reflection
of my eyes
If you're not here, please
tell me where

Chorus

I know that you're out there
(I can feel that you are close
by your here somewhere)
I've been waiting so long for you
(Is life a dream, are things
really what they seem)
When I close my eyes you're here
(Yo, I wanna hold you if only I could show you)
Dreamings not like reality
(Cause you're my destiny
girl you know)

Need you too

Is this a curse or am I blessed
I think I'm going mad
Up in this cold world
without my girl

I visualize her daily because I am feeling incomplete without my lady

I see things like her image

Lurking in the mirror

I'm fantasizing, wishing she were right beside me

But realizing I am
dreaming it's an illusion

So much confusion

I'm crazy about this lady

You haunt me, I have never met

you but I can swear to God in my dreams I smell and touch you

I long for you wanna hold

you when I am lonely

Cause in my heart you're
the only one who knows me

If only I could manifest
your very being I could show

you a part of me

No girl has ever seen

Believe me you're the only
one in this whole world for me

I know you're out there so

baby girl just wait for me

Chorus

I know that you're out there
(I can feel that you are close

by your here somewhere)
I've been waitin so long for you
(Is life a dream, are things
really what they seem)
When I close my eyes you're here
(Yo, I wanna hold you if only I could show you)
Dreamings not like reality
(Cause you're my destiny
girl you know)
Need you too

Bridge

How will I know it's you,
so many faces in the world
(Which one belong to you)
Would you pass me by
(If I don't say hi)
Please leave a clue
(I'll come find you and make
our dreams come true)
I won't hesitate nor wonder,
but please don't make
we wait no longer
(If I had my way you'd be
here with me, I know it's destiny, coz we were meant to be)

Chorus

I know that you're out there
(I can feel that you are close
by your here somewhere)
I've been waitin so long for you
(Is like a dream are things
really what you seem)
When I close my eyes you're here
(Yo, I wanna hold you if only
I could show you)
Dreamings not like reality
(Cause you're my destiny
girl you know)
I Need you too
