Go Go

Jay and James roll

Tape i'm ready to...

Here i am

It's Friday night

I'm feeling good

The time is right

There you come

Right out the crowd

And all that i can say is

Chorus:

I want you to know

That i can rock you girl so

Come on let's go

I want you to see

I'm really feelin' you so

If you're feelin' me

I want you to know

That i can rock you baby

With the lights down low

I want you to see

I'm really feelin' you so

If you're feelin' me

Go go

So you think you got it all together

Before you make a move

And get too deep

Don't you know that i can

Love her better?

So give it up, go home

And get some sleep

Chorus

I must have been mistaken for another

You over looked the fact that i'm your

Older brother

Don't you know the

Girl-she wants me

So look in the other direction and go

And get some

Chorus

Go go...
