

# Baal, Little Brain

Lets go, give it a shot, you cant even touch me

Lets go touch it again, I want to laugh at you.

Lets go, make see that you are a shit.

Yes, I know it, youll say I am wretch.

Every day you prove your little brain, like the ones at war.

Who do you think you are?

Come on, say it, you are all gods.

You couldnt fall so deep because they dont let you

Here I have the chance to laugh at you,

And I hope they beat you up.

You dont even know on what political side you are.

And I hope that these words are useful for people

To know the shit you are and they spit your face when they see you.

Im happy not to be like you.

So dont get embarrassed and if you really proud.

I laugh because youre over.

Only the people from the past sustain you those still alive, and the new ones are known for their vic

Here I have the chance to laugh at you,

And I hope they beat you up.

You dont even know on what political side you are.
