

Babel Fish, Light of Day

Flat on my back
With you beside me
I cannot believe the things that I see
When I'm in your arms
The world stops spinning around

Rub on the lamp
'Cause I've been locked in
All sweaty and damp
When you start wishing
You've got all the three
That's us, it's you and me

You say come on
We've been around here for too long
Our time is now
We're gonna make it there somehow
And I say ok
I'll risk the night to see the light of day

Then I become
A doubting Thomas
I'm not really sure
The stakes become us
But you are the calm
My doubts are all crushed in your palm

You say come on...

Feeling the blood running through me
Feeling my life running freely

You say come on...

When you go out
I'm still in bed
But you left me a note
The mirror's red
You're not really gone
Your writing tells me i'm the one

You say come on...
