

# Baby Animals, Nervous At Night

(DeMarchi/Parise/Leslie)

I just found out, what have I done ?  
Now I can't walk under the same sun  
You're good you're right I'm nervous at night  
Breathe in me sense I have no defence  
Lonely little demons find me  
Every time I turn the lights out  
You have a right to start pretending  
Another guise another morning  
You're good you're right I'm nervous at night  
Breathe in me sense I have no defence  
Lonely little demons find me  
Every time I turn the lights out  
Lonely little demons find me  
Every time I look behind me  
Your heart is tired black and empty  
All because life's not how it should be  
Lonely little demons find me  
Every time I turn the lights out  
Lonely little demons find me  
Every time I look behind me  
Lonely demons find me  
Every time I look behind me
