

Baby Bird, Babybird

Baby bird...don't you cry
Don't you fly away from me
..don't you fly
..don't you fly

La la la...

I've gift-wrapped you a tiny tree
With golden leaves for you & me
To set-up home in a beautiful nest
You can lie here on my soft red chest
My soft red chest

La la la...

Baby baby bird...I'm so lonely
And the sky is so cold & unstable
Baby bird...don't you cry
Don't you fly away from me
..don't you fly

(x4)

Baby baby bird...let me be
The cage around your Christmas tree
You out there, me in here
Never, never set me free
Baby bird...set me free
..set me free
..set me free
