

Baby Bird, You & Me

You & me

Me & you

(x3)

You & me & me & you & me & me
& me & you

As long as we are one, one of what?

I don't care

One of what?

I don't care

(x2)

..... In any language, baby

It means I love you

I look in the mirror

I see right through

I am beside myself

When I'm inside you

You make the sky green

You make the sun blue

No, baby, it ain't God I love...it's you

Me & you, You & me, me & you & you & me

So complicated

It's so unexpurgated

Underrated

Over sensationalised

Under materialised

Ooh, such big words

We don't need them

All we need is you & me

(x2)
