

Baby Vox, Come To Me

How long do you want me to feel this kind of hurt?
Even the sunlight make me hurt
Do you understand my feelings?
Your voice
Your breathing sound
The fragrant smell when I am in your warmth
All these things made me hurt until I can't breath
I am thinking of you until mad
Where is it?
I know that it's all over
I know that I must let you leave
But the what can't be erased is the truth of me, liking you
I know that I can't forget
I know that I can't be sad
But how?
I just don't love me
But I need to live on with our memories
You showed no mercy
Cannot forget you had made me touched until...
Is it because I too ... your voice
Your breathing sound
The fragrant smell when I am in your warmth
I am thinking of you until mad
Rap: Why are you so bad to me?
Did you really love me during this period?
I don't know whether you can be replace in my heart
But I know that I love you
I am still walking about around you
come to me
nevermind
I can only walk in our own ways
