All I wanna do is vibe
Put you on the suga rise
Smilin' wit your pearly whites

Sexy each and every day
When I put this thang up on ya
Sexy mama wanna merry maid
But hold up now, we just met
Let me see how long you keep it wet
Hold it steady, already,
Baby girl we done did dat
It's like a stair way to paradise
When I look into your eyes,

And we can do all type of thangs
Rollin in them whips and I like to swang

Spendin like Burberry

It's goin' down like gravity
Yo baby daddy mad at me
And I throw these things so handley
Cop me an assault and battery
She still wanna love me like a playboy bunny
Lookin' like warm hunny
So classy and stunny
Faithfully, she waits for me
Like the real ones really do
So gracefully she's made for me
And you know that's on the cool
Girl get your shine on
like candle in the wind
Gotta keep my mind strong

When I'm hammer in the fin
And one look is all it took
Incredible thighs
And one look is all it took
Incredible eyes
