

Babydoll, Don't Go Away

Do you remember all the times we had together boy
Holding you so tight all through the night
Love was made, made for you and I
The day you left me boy
I broke down and cried
Memories of you boy are going through my mind
Stay with me forever
Don't you ever leave my side
Can't you kiss me and hold me again
Even though we're lovers
Doesn't mean we can't be friends

Chorus:

Don't go away
Don't go away
My love is here to stay
Don't go away (5x)

You are here right now
So let me know our love is true
When I look into your eyes

You leave my body hypnotized
Every night I hope and pray
That you'd be my lover boy each and every day
Every time I'm with you I feel my love inside
When you make love to me all through the night
Can't you kiss me and hold me again
Even though we're lovers
Doesn't mean we can't be friends

Chorus

Memories of you boy are going through my mind
Stay with me forever
Don't you ever leave my side
Can't you kiss me and hold me again
Even though we're lovers
Doesn't mean we can't be friends

Chorus
